Septic System Operation and Maintenance–Private Well Owners and Environmental Health Professionals

Two-Part Webinar

September 9 • Online

This webinar will be presented in two parts with a one-hour break.

PART ONE • 10:00 am–12:00 pm
This webinar will educate owners on proper operation and maintenance of septic systems, common troubleshooting, preventive maintenance and solutions. We will also discuss the benefits of establishing long term solutions such as On-Site Wastewater Management Programs. (Qualifies for up to 2 RCAC Contact Hours)

PART TWO • 1:00 pm–3:00 pm
Do you want to improve your knowledge of private well systems or water treatment available for homeowners? This workshop is ideal for environmental health professionals,who want a better understanding of well systems, how to perform a well assessment and better understanding of source water protection for private well owners. (Qualifies for up to 2 NEHA Contact Hours)
