

# Free Drinking Water Workshops for Colorado

Two Workshops • Online

## Planning for the Future: Asset Management for Small Systems

February 7, 2024 • 9:00 am–12:00 pm  
(Mountain Time)

This training will cover cost-effective techniques for planning for the lifetime of system assets to maintain the desired level of service. Attendees will also learn to incorporate system renewal into capital improvement planning and include risk management into system budgets.

*0.3 Colorado Drinking Water Training Units awarded*
