

Native America Water Master's Association (NAWMA) Western & Southern Arizona Distribution System Hands-On Test Prep 2-Day Training

February 24 & 25 · In Person, Havasu Lake, CA

Water Operators are tasked with the very important responsibility of overseeing a water system and ensuring that safe potable drinking water is provided to the consumers. The water operator's knowledge and experience in the water distribution processes, such as disinfection, installing new services, repairing breaks and chlorine residual testing plays a vital part in effectively identifying the best practices in eliminating pathogens in the drinking water. The focus of this two-day workshop is to develop the next generation tribal water operators and assist current operators in the exercise of their duties.

Day 1 Test prep Topics:

- Water sources
- Chemistry
- Class V wells (EPA)
- Pipes, valves, and meters
- Water math

Day 2 Hands on Topics:

- Water services
- Hot tapping
- Water sampling
- Meter assembly

12 Contact Hours awarded for two-day event, 6 each day

When: February 24-25, 2026 · 9:00 a.m.–3:30 p.m (Pacific Time)

Where: Chemehuevi Education Center,
101 Paloverde Drive
Havasupai Lake, CA 92363
