

Sierra Tribal Operator Certification

February 28, 2023

9:00 a.m.–1:00 p.m. PST

Online

These workshops are being offered to the Tribal water operators & tribal environmental departments in the Eastern Sierra and Nevada region. The purpose of these workshops is to provide a forum to discuss topics that are used in the day to day running of the drinking water systems & evolving drinking water technologies, regulations, & issues facing Tribal water as well as Tribal environmental departments.

The meetings also support local Tribal water operators by providing contact hours needed to maintain drinking water certification & base knowledge to use to study & take the testing to get a water operator license. These meetings allow for networking with local operators & environmental staff.

The Workshops sessions will be planned for throughout the year & coordinated by local RCAC technical assistance providers. The gathering will be held online & in person.

4 California Drinking Water Contact Hours awarded
