

Water Sampling, Contaminants and Communications

July 8, 2025 • Buckley, WA

This one day, 7-hour training will be divided into 3 parts:

Water Quality Sampling

Learn the importance of testing, bacteria sampling plans, drinking water tests and correct collection procedures. Class will include hands-on practice.

PFAS and Other Contaminants

Learn about PFAS and current emerging contaminants and concerns that can affect utilities.

Utility Communication – It Matters!

Learn communication skills and tools utilities use to build trust and credibility with customers and to deliver effective messages in good times and bad.

0.7 Washington Drinking Water Continuing Education Units awarded for attending.
