

# Water Quality Workshop

Greater Monterey IRWM

July 16, 2020 • Online

Water is an essential component of our day to day lives and maintaining the quality of this resource is vital to preserve the health of our communities and integrity of our surrounding environment.

But what exactly does maintaining water quality mean?

This free two-hour workshop provides a brief overview of the contaminants that can influence the quality of our water supply, as well as the policies and treatment measures in place to minimize the impact of these pollutants.

Whether you are a water system operator, private well owner, or just a member of the community looking to gain some additional insight into water quality, this workshop may be right for you. Please join us on Thursday, July 16th, 2020, from 5:30 pm to 7:30 pm for this free online workshop.

*2 CA Drinking Water Contact Hours available.*

**When:** July 16, 2020 • 5:30 pm–7:30 pm

**Register:** <https://www.events.rcac.org/assnfe/ev.asp?ID=2147>

## Questions?

**For registration questions, contact:**

registration@rcac.org • (916) 447-9832 ext. 1429
