

# Groundwater Protection and Outreach

November 14, 2019 • West Sacramento, CA

Do you want to improve your knowledge of well systems and actively engage rural communities to participate in source water protection? Have you ever been assigned to assist rural communities but are unable to effectively engage the public or are unfamiliar with well systems? This workshop will familiarize Environmental Health Specialists and other water quality professionals with how to perform a well assessment and learn about the methods to break down barriers and communicate more effectively.

Participants will learn and understand:

- Effective outreach methods and partnership
- Basic well system construction, components and how it works
- Identifying well vulnerabilities
- Identifying potential contamination threats

This workshop is ideal for Environmental Health Specialists and water quality specialists, who want a better understanding of well systems, how to perform a well assessment and encourage community involvement in groundwater protection.

**This workshop qualifies for 3 NEHA credits.**

**Cost:** Free

**When:** Thursday, November 14, 2019 • 9:00 a.m.–12:00 p.m.

**Where:** RCAC • Sal Solinas Room  
3120 Freeboard Dr., Suite 201 • West Sacramento, CA 95691

**Register online at:** <https://www.events.rcac.org/assnfe/ev.asp?ID=1886>
