

# Free Drinking Water Workshops for Colorado

Two Workshops • Online • Multiple Dates Available

## Regulatory Updates & CDPHE Resources

This course is designed to inform operators of small drinking water systems of regulations regarding Lead & Copper Rule Revisions (LCRR) & provide guidance on available CDPHE resources for small systems to maintain compliance for their drinking water system. Through lecture & activities, operators will learn the changes made to the Lead and Copper Rule (LCR) & the requirements associated with the Lead Service Line Inventory (LSLI) as well as useful resources provided by CDPHE through their website to maintain compliance.

*0.4 Colorado Water Treatment & Water Distribution Training Units awarded*

This training will be held on two different dates:

**NOVEMBER 15, 2022 • 10:00 AM–3:00 PM**

Registration:

<https://www.events.rcac.org/assnfe/ev.asp?ID=3485>

**JANUARY 11, 2023 • 10:00 AM–3:00 PM**

Registration:

<https://www.events.rcac.org/assnfe/ev.asp?ID=3488>

## Storage Tank Rule & Boil Order Notification Requirements

This course is designed to inform operators of small drinking water systems of regulations regarding storage tanks & boil order notifications. Through lecture & activities, operators will learn the requirements of periodic & comprehensive tank inspections, reporting requirements & tank maintenance. This course will discuss boil order notification, required response & best practices on how to inform customers of emergency.
