The NAWMA Gathering

Announcing the gathering of the Central California Native American Water Master's Association on December 8, 2021.

The purpose of these meetings is to provide a forum to discuss evolving drinking water and wastewater technologies, regulations, and issues facing Tribal water utilities as well as Tribal environmental departments.

The meetings also support local Tribal water and wastewater operators by providing contact hours needed to maintain drinking water certification. These meetings allow for networking with local operators and environmental staff.

Central California NAWMA sessions will be planned for throughout the year and coordinated by local RCAC technical assistance providers. The gathering will be in-person.

6 California Drinking Water Contact Hours awarded.
