

Hawaii Emergency Response Planning & Cyber Security

Thursday, June 17, 2021

8:00am - 10:00am Hawaii Time • Online

Register here: <https://www.events.rcac.org/assnfe/ev.asp?ID=2651>

0.2 Hawaii Drinking Water Continuing Education Units has been approved by the Hawaii Drinking Water Operator Certification Board for this workshop session.

This session will provide an overview of the emergency response planning requirements for utility operators, including a presentation on cyber security issues related to small utilities. A tabletop exercise will be run in breakout groups for operators to simulate their response to an extreme weather event/power outage that affects their operations.

This training will be hosted on GoToTraining.
