

Septic System O&M and Private Well Workshop

September 3, 2019 • Chico, CA

Private Well and Septic Owners: When was the last time you had your well tested? Do you want to learn more about protecting your groundwater and the issues that can impact drinking water? Are you having well or septic system problems?

This free workshop will educate private well and septic owners on proper operation and maintenance of drinking water wells and septic systems, common troubleshooting of domestic well and septic systems, preventive maintenance and solutions.

If you live in a house on private septic or you get your water from a well, this training is for you! **This workshop qualifies for 0.6 CEUs.**

Workshop agenda:

- Septic system function
- Do's and Don'ts for keeping your septic system operating
- Preventative maintenance for maintaining healthy septic systems
- Groundwater and water cycle
- Well system components and how they work
- Contaminants and how your well may be vulnerable
- Importance of water quality
- Typical treatment methods

When: Tuesday, September 3, 2019 • 9:00 a.m.–12:00 p.m.

Where: Murphy Commons Apartments
1290 Notre Dame Blvd, Chico, CA 95928

Register online at: <https://www.events.rcac.org/assnfe/ev.asp?ID=1863>
